ECONOMIC IMPACT

Revenue Estimate

If the minimum level of contributions is achieved each year, as adjusted for inflation (approximately \$270,000 in 2001/2002), potential revenue losses would be very minor, on the order of \$16,000 annually beginning with the **2006/2007** fiscal year. The loss would result from itemized deductions for the contributions.

Any possible changes in employment, personal income, or gross state product that might result from this measure are not taken into account.

Revenue Discussion

According to departmental data, the total amount of existing voluntary contributions to all funds was nearly \$4 million for fiscal year 2001/2002 with an average of \$280,000 per individual designated fund.

Assuming contributions equal or exceed the minimum contribution threshold, as adjusted for inflation, and all contributors itemize deductions, the annual revenue loss would be on the order of \$16,000 by applying an average marginal tax rate of 6%.
